

Format: 85,6 x 54 mm

Design specifications for the print layout (retransfer-glossy):

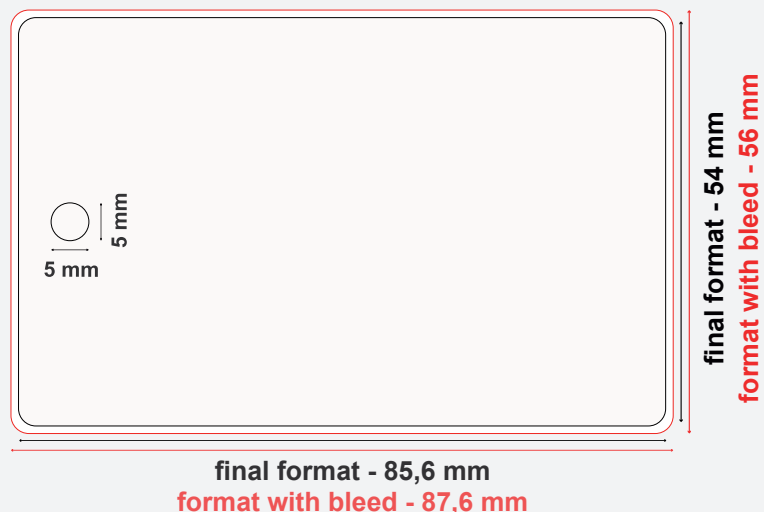

- for best results, make sure your document is in the sRGB color space
- fonts exported in paths/curves (otherwise include them in an e-mail to print@nfc21.de)
- preferably vector graphics
- fonts should not be too thin (not below 0,2 mm)
- please include a surrounding bleed of 1 mm

Data delivery:

- as a PDF document
- at least a document resolution of 600 dpi
- do **NOT** send this requirements page
- insert your layout into pages 2 and (for double-sided printing) page 3
- alternatively: create your own document with the required format
- borderless printing: please create a 1mm all-round bleed
- please make sure that when you export your file, it is still in srgb

final format - 85,6 x 54 mm

**format with bleed (final
format + bleed) -
87,6 x 56 mm**
